
Industry

Industrial, Manufacturing and Consumer Goods

Extensive supply chains, detailed cost structures and complex taxation on production and distribution.

Costs, margins and inventory: the technical basis of almost every industrial dispute.

Supply and distribution disputes, corporate transactions, reorganizations and tax assessments in industry depend on a technical reading of costs, margins, inventory and tax books. SGEx combines cost accounting, valuation and production auditing to answer these questions.

Common situations in this industry

Valuation of an industrial company or equity interest.

Disputes under supply, distribution or agency agreements.

Review of tax calculations on production and distribution.

Judicial reorganization of a manufacturer.

Determination of costs, margins and inventory.

How SGEx works

Cost system

Production costs rebuilt from the company's own system.

Inventory verified

Inventory movements and valuation checked.

Production audited

Experience auditing the production of large-scale equipment.

Margins and values are determined from the actual cost structure, not assumed percentages.

What We Solve

Questions in industry.

What is the industrial company worth?

Valuation of companies and equity interests.

Was the supply agreement performed?

Supply, distribution and agency disputes.

Is the tax on production correct?

Review of tax calculations on production and distribution.

Can the manufacturer recover?

Economic and financial analysis in judicial reorganization.

What is the product's real margin?

Determination of costs, margins and inventory.

Does production meet the specification?

Quality and production process audits.

How We Approach It

Steps applied to this type of engagement.

1**Cost structure**

Cost and production systems.

2**Inventory and margins**

Gathering and valuation.

3**Analysis**

Valuation, tax or contractual.

4**Result**

Conclusions with explicit assumptions.

What we examine: financial statements, cost systems, production and inventory reports, commercial contracts, tax books and appraisals of industrial assets.

Deliverables: valuation report, technical opinion, tax recalculation, determination of costs and margins and expert report.
